About Me

As a creative and self-taught UI/UX designer with a unique background in infrastructure engineering for 1.5 years. Driven by an unwavering passion to transition into a design career, I am eager to craft seamless and captivating user interfaces that elevate user satisfaction. With a keen adaptability and a solid understanding of industrial etiquette, I am seeking opportunities to further refine my skills and deliver exceptional performance in the exciting and evolving field of UI/UX design.

Experience

Infrastructure Engineer -
Mariapps Marine Solutions, Kochi
2021 NOV - 2023 MAR

- Worked as support for infrastructure setup and implementation for prominent clients.
- Supported database deployments and maintenance.
- Perform SQL Server administrative tasks.
